The Pipeline Loss Allowance (“PLA”) for all tariff movements and line fill return will be based on the PLA chart above.

- (1) Reserved.
- (2) All movements to the Augusta Destination or the McPherson Destination shall be subject to an additional fee (i.e., in addition to all other applicable tariff rates, fees, and charges) of **[U]**\$0.10 per barrel.
- (3) Deliveries to Deeprock South terminal and Deeprock North terminal are included. Deliveries to the Blue Knight terminal, the Rose Rock terminal, the Enterprise terminal, the Enbridge terminal, the Plains All-American terminal, and the NGL will be assessed an additional pump over fee amounting to **[U]**\$0.08. Deliveries to Seaway will be assessed an additional pump over fee amounting to **[U]**\$0.10 per barrel.
- (4) Shipper may nominate barrels from the Pawnee and Buckingham Origins as a Flex Shipper at this rate. Shipper may nominate volumes for final delivery to the Various Cushing Destinations for an additional **[U]**\$0.25 per barrel fee, as well as, (1) an **[U]**\$0.08 pump over fee for deliveries to the Blue Knight terminal, the Rose Rock terminal, the Enterprise terminal, the Enbridge terminal, the Plains All-American terminal, the NGL, or (2) a **[U]**\$0.10 per barrel fee for deliveries to Seaway.
- (5) As part of this volume incentive program, shippers may satisfy their obligations by shipping from the Origin (Sterling, Colorado) or upstream origins to the Destination (Various Cushing Destinations) or any other destinations on the pipeline. The Volume Incentive Rates payable by a shipper on its minimum volume commitment and any extra barrels will be the then-applicable Volume Incentive Rates for shipments from the Origin to the Destination regardless of whether the shipper ships to that Destination or to an alternative destination; except as provided in footnote 2. If shipper ships from an upstream origin, the shipper shall be charged the applicable rate from the upstream origin to Sterling, Colorado plus the applicable Volume Incentive Rate. If shipper ships from an upstream origin, the shipper shall be charged the PLA percentage applicable to the movement from the upstream origin to the final destination.

The applicable Volume Incentive Rates shall be determined based on shipper's total shipments in the month. If shipper ships more barrels in a month than the volume tier associated with shipper's minimum volume commitment, then all barrels shipped by shipper in such month shall be charged the Volume Incentive Rate applicable to the volume and rate tier one tier above shipper's volume tier. Regardless of the number of barrels shipped in the month, shipper will not qualify for a Volume Incentive Rate more than one tier above shipper's volume tier.

(6) In addition to the primary origin of Guernsey ("Primary Origin") and primary destination of Various Cushing Destinations ("Primary Destination"), shippers who executed a transportation service agreement may originate from the Platteville and Sterling origins ("Secondary Origins") and/or make deliveries to upstream Destinations in Kansas and Oklahoma ("Secondary Destinations"). All movements whether from the Primary Origin or Secondary Origin to the Primary Destination or Secondary Destinations shall be charged the transportation rate from the Primary Origin to Primary Destination, as well a pump-over charge of [U]\$0.10 per barrel for shipments to (i) Seaway at the Various Cushing Destinations, (ii) the Augusta Destination, and (iii) the McPherson Destination. Shippers may ship barrels above their minimum volume commitment at the committed shipper rate.

(7) In addition to the primary origin of Hereford ("Primary Origin") and primary destination of Various Cushing Destinations ("Primary Destination"), shippers who executed a transportation service agreement may originate from the Buckingham origin ("Secondary Origin") and/or make deliveries to upstream Destinations in Kansas and Oklahoma ("Secondary Destinations"). All movements whether from the Primary Origin or Secondary Origin to the Primary Destination or Secondary Destinations shall be charged the transportation rate from the Primary Origin to Primary Destination, as well as the following pump-over charges: (i) shipments to (x) Seaway at the Various Cushing Destinations, (y) the Augusta Destination, and (z) the McPherson Destination will be assessed an additional pump over fee of [U]\$0.10 per barrel; and (ii) shipments to NGL will be assessed an additional pump over fee of [U]\$0.08 per barrel. Shippers may ship barrels above their minimum volume commitment at the committed shipper rate.

(8) In addition to the primary destination of Sterling ("Primary Destination"), shippers who executed a production dedication agreement may make deliveries to the Pawnee, Colorado or Buckingham, Colorado destinations ("Secondary Destinations"). All movements, whether to Primary Destination or Secondary Destinations, shall be charged the production dedication volume rate from the origin

to the Primary Destination. Any barrels above Shipper's Production Dedication Volume shall receive a [U]\$0.15 discount off the then applicable production dedication volume rate.

(9) In addition to the primary destination of Sterling ("Primary Destination"), shippers who executed a committed shipper service agreement may make deliveries to the Pawnee, Colorado or Buckingham, Colorado destinations ("Secondary Destinations"). All movements, whether to Primary Destination or Secondary Destinations, shall be charged the committed shipper rate from the origin to the Primary Destination. Barrels above a shipper's minimum volume commitment shall be at the Incremental Committed Shipper Rate.

(10) As part of this volume incentive program, shippers may satisfy their obligations by shipping from Guernsey, Wyoming, Platteville, Colorado, and Buckingham, Colorado (collectively the "Origins") to the destination referred to as Various Cushing Destinations ("the Destination") or any other destinations on the pipeline. The Incentive Rate payable by a shipper on its minimum volume commitment and any incremental barrels will be the then-applicable Incentive Rate for shipments from the Origins to the Destination, regardless of whether the shipper ships to that Destination or to an alternative destination; except as provided in footnote 2. In lieu of the PLA rates set forth above, a PLA of 0.2% shall be retained by Carrier.

(11) In addition to the primary destination of Sterling ("Primary Destination"), shippers who executed a transportation service agreement may make deliveries to downstream destinations in Kansas and Oklahoma ("Secondary Destinations"), subject to the capability of such Secondary Destination. If a shipper elects to ship to a Secondary Destination, those barrels may also count toward any MVC obligations the shipper may have on the Main Line (as defined in the Rules and Regulations Tariff). If a shipper ships to a Secondary Destination, the shipper shall pay the committed rate set forth herein plus the applicable tariff rate and any associated pump-over charges for the Main Line transportation, but shall be charged the PLA fee from the origin to the Secondary Destination and not the sum of the PLA fees on the primary path (Guernsey to Sterling) and the Main Line.
