

TALLGRASS PONY EXPRESS PIPELINE, LLC**LOCAL AND VOLUME INCENTIVE PIPELINE TARIFF**

THE RATES AND CHARGES NAMED IN THIS TARIFF ARE
FOR THE TRANSPORTATION AND DELIVERY OF
CRUDE PETROLEUM
By Pipeline

Governed, except as otherwise provided, by rules and regulations shown in Tallgrass Pony Express Pipeline, LLC FERC No. 1.0.0 and subsequent issues thereof.

FROM:

Origins in WYOMING, COLORADO, and KANSAS

TO:

Destinations in COLORADO, KANSAS, and OKLAHOMA

[W]Filed in compliance with 18 CFR § 342. 3(a)2(b).

[N]Issued on less than thirty (30) days' notice under authority of 18 CFR § 341.14. This tariff publication is conditionally accepted subject to refund pending a 30-day review period.

Notice of Temporary Embargo: Effective February 29, 2024, a temporary embargo is in place for all movements of PXL Grade Petroleum to the following destinations: the Augusta Destination, located near El Dorado, Kansas; the McPherson Destination located near McPherson, Kansas; the Phillips 66 refinery, located near Ponca City, Oklahoma; and the various Destinations located near Cushing, Oklahoma. The temporary embargo is required due to tank maintenance at the Sterling Terminal and will remain in effect until cancelled by a subsequent tariff filing. The embargoed movements are denoted by the symbol [E].

[F1] This tariff contains rates that are higher for shorter than longer distances over the same route. Such departure from the terms of the amended Fourth Section of the Interstate Commerce Act is permitted by authority of the Federal Energy Regulatory Commission, Fourth Section application dated November 27, 2019, as indicated herein.

The provisions published herein will, if effective, not result in an effect on the quality of the human environment.

ISSUED: April 21, 2025**EFFECTIVE: May 1, 2025**

The Pipeline Loss Allowance (“PLA”) for all tariff movements and line fill return will be based on the PLA chart above.

- (1) Reserved.
- (2) All movements to the Augusta Destination or the McPherson Destination shall be subject to an additional fee (i.e., in addition to all other applicable tariff rates, fees, and charges) of [U]\$0.10 per barrel.
- (3) Deliveries to Deeprock South terminal and Deeprock North terminal are included. Deliveries to the Blue Knight terminal, the Rose Rock terminal, the Enterprise terminal, the Enbridge terminal, the Plains All-American terminal, and the NGL will be assessed an additional pump over fee amounting to [U]\$0.08. Deliveries to Seaway will be assessed an additional pump over fee amounting to [U]\$0.10 per barrel.
- (4) Shipper may nominate barrels from the Pawnee and Buckingham Origins as a Flex Shipper at this rate. Shipper may nominate volumes for final delivery to the Various Cushing Destinations for an additional [U]\$0.25 per barrel fee, as well as, (1)

an [U]\$0.08 pump over fee for deliveries to the Blue Knight terminal, the Rose Rock terminal, the Enterprise terminal, the Enbridge terminal, the Plains All-American terminal, the NGL, or (2) a [U]\$0.10 per barrel fee for deliveries to Seaway.

(5) As part of this volume incentive program, shippers may satisfy their obligations by shipping from the Origin (Sterling, Colorado) or upstream origins to the Destination (Various Cushing Destinations) or any other destinations on the pipeline. The Volume Incentive Rates payable by a shipper on its minimum volume commitment and any extra barrels will be the then-applicable Volume Incentive Rates for shipments from the Origin to the Destination regardless of whether the shipper ships to that Destination or to an alternative destination; except as provided in footnote 2. If shipper ships from an upstream origin, the shipper shall be charged the applicable rate from the upstream origin to Sterling, Colorado plus the applicable Volume Incentive Rate. If shipper ships from an upstream origin, the shipper shall be charged the PLA percentage applicable to the movement from the upstream origin to the final destination.

The applicable Volume Incentive Rates shall be determined based on shipper's total shipments in the month. If shipper ships more barrels in a month than the volume tier associated with shipper's minimum volume commitment, then all barrels shipped by shipper in such month shall be charged the Volume Incentive Rate applicable to the volume and rate tier one tier above shipper's volume tier. Regardless of the number of barrels shipped in the month, shipper will not qualify for a Volume Incentive Rate more than one tier above shipper's volume tier.

(6) In addition to the primary origin of Guernsey ("Primary Origin") and primary destination of Various Cushing Destinations ("Primary Destination"), shippers who executed a transportation service agreement may originate from the Platteville and Sterling origins ("Secondary Origins") and/or make deliveries to upstream Destinations in Kansas and Oklahoma ("Secondary Destinations"). All movements whether from the Primary Origin or Secondary Origin to the Primary Destination or Secondary Destinations shall be charged the transportation rate from the Primary Origin to Primary Destination, as well a pump-over charge pf [U]\$0.10 per barrel for shipments to (i) Seaway at the Various Cushing Destinations, (ii) the Augusta Destination, and (iii) the McPherson Destination. Shippers may ship barrels above their minimum volume commitment at the committed shipper rate.

(7) In addition to the primary origin of Hereford ("Primary Origin") and primary destination of Various Cushing Destinations ("Primary Destination"), shippers who executed a transportation service agreement may originate from the Buckingham origin ("Secondary Origin") and/or make deliveries to upstream Destinations in

Kansas and Oklahoma ("Secondary Destinations"). All movements whether from the Primary Origin or Secondary Origin to the Primary Destination or Secondary Destinations shall be charged the transportation rate from the Primary Origin to Primary Destination, as well as the following pump-over charges: (i) shipments to (x) Seaway at the Various Cushing Destinations, (y) the Augusta Destination, and (z) the McPherson Destination will be assessed an additional pump over fee of [U]\$0.10 per barrel; and (ii) shipments to NGL will be assessed an additional pump over fee of [U]\$0.08 per barrel. Shippers may ship barrels above their minimum volume commitment at the committed shipper rate.

(8) In addition to the primary destination of Sterling ("Primary Destination"), shippers who executed a production dedication agreement may make deliveries to the Pawnee, Colorado or Buckingham, Colorado destinations ("Secondary Destinations"). All movements, whether to Primary Destination or Secondary Destinations, shall be charged the production dedication volume rate from the origin to the Primary Destination. Any barrels above Shipper's Production Dedication Volume shall receive a [U]\$0.15 discount off the then applicable production dedication volume rate.

(9) In addition to the primary destination of Sterling ("Primary Destination"), shippers who executed a committed shipper service agreement may make deliveries to the Pawnee, Colorado or Buckingham, Colorado destinations ("Secondary Destinations"). All movements, whether to Primary Destination or Secondary Destinations, shall be charged the committed shipper rate from the origin to the Primary Destination. Barrels above a shipper's minimum volume commitment shall be at the Incremental Committed Shipper Rate.

(10) As part of this volume incentive program, shippers may satisfy their obligations by shipping from Guernsey, Wyoming, Platteville, Colorado, and Buckingham, Colorado (collectively the "Origins") to the destination referred to as Various Cushing Destinations ("the Destination"). The Incentive Rate payable by a shipper on its minimum volume commitment and any incremental barrels will be the then-applicable Incentive Rate for shipments from the Origins to the Destination. In lieu of the PLA rates set forth above, a PLA of 0.2% shall be retained by Carrier. The following pump-over charges shall apply: (i) shipments to Seaway at the Various Cushing Destinations will be assessed an additional pump over fee of \$0.10 per barrel; and (ii) shipments to NGL will be assessed an additional pump over fee of \$0.08 per barrel.

(11) In addition to the primary destination of Sterling ("Primary Destination"), shippers who executed a transportation service agreement may make deliveries to downstream destinations in Kansas and Oklahoma ("Secondary Destinations"), subject to the capability of such Secondary Destination. If a shipper elects to ship to a

Secondary Destination, those barrels may also count toward any MVC obligations the shipper may have on the Main Line (as defined in the Rules and Regulations Tariff). If a shipper ships to a Secondary Destination, the shipper shall pay the committed rate set forth herein plus the applicable tariff rate and any associated pump-over charges for the Main Line transportation, but shall be charged the PLA fee from the origin to the Secondary Destination and not the sum of the PLA fees on the primary path (Guernsey to Sterling) and the Main Line.

(12) The Augusta Blend Incentive Rate shall apply to Petroleum with a viscosity greater than thirty (30) centistokes. The Light Incentive Rate shall apply to Petroleum with a viscosity of thirty (30) centistokes or less. In connection with an assignment of a shipper's contractual obligation under this program, the assigning shipper may transfer shipping history in the applicable pipeline segments to the assignee in an amount not to exceed the minimum volume commitment being assigned.

(13) If Shipper ships more barrels in a month under this program than the volume tier associated with Shipper's minimum volume commitment, then all barrels shipped by Shipper under this program in such month shall be charged the incentive rate applicable to the volume tier one tier above Shipper's volume tier. As part of this volume incentive program, Shippers may satisfy their obligations by shipping from the Origin (Sterling, Colorado) or upstream origins to the Destination (Various Cushing Destinations) or any other destinations on the pipeline. The incentive rates payable by a Shipper on its minimum volume commitment and any extra barrels will be the then-applicable incentive rates for shipments from the Origin to the Destination, regardless of whether the Shipper ships to that Destination or to an alternative destination, except as provided in footnote 2. If Shipper ships from an upstream origin, the Shipper shall be charged the applicable rate from the upstream origin to Sterling, Colorado plus the incentive rate.

The incentive rates may be indexed annually to reflect the inflation adjustments promulgated annually by FERC; provided however, Carrier shall not be required to reduce any of the then-current incentive rates to reflect application of a negative indexing adjustment.

If Shipper ships from an upstream origin, the Shipper shall be charged the PLA percentage set forth in the PLA tables herein applicable to a movement from the upstream origin to the destination not the sum of the product loss allowance fees; provided however, the product loss allowance for shipments from the Platteville, Colorado Upstream Origin shall be 0.20%.

(14) In addition to the primary destination of Cushing, OK ("Primary Destination"), shippers who executed a committed shipper service agreement may make deliveries, subject to available capacity, to intermediate destinations in Kansas and Oklahoma

that are upstream of Cushing, OK ("Secondary Destinations"). All movements, whether to the Primary Destination or Secondary Destinations, shall be charged the incentive rate from the Platteville, CO origin ("Primary Origin") to the Primary Destination, except as provided in footnote 2. The first nine thousand (9,000) BPD above a shipper's minimum volume commitment shall be at the committed shipper rate, any barrels above that shall be at the extra barrel rate. A shipper may also ship barrels from the Guernsey, WY origin ("Secondary Origin") to the Primary or Secondary Destinations at the Guernsey incentive rate but such volumes do not count towards the shipper's minimum volume commitment. Shippers have a one-time right, to be exercised in the first twelve (12) months, to increase their minimum volume commitment by at least five thousand (5,000) BPD. In the event a shipper exercises this right, all barrels in excess of such shipper's minimum volume commitment will be charged the incentive rate. The applicable product loss allowance for movements from the Primary Origin shall be 0.20% and from the Secondary Origin shall be 0.15%.

(15) Shippers participating in this program must have a production dedication from both Buckingham, CO and from Pawnee, CO. In addition to the primary destination of Cushing, OK ("Primary Destination"), shippers who executed a dedication transportation service agreement may make deliveries, subject to available capacity, to intermediate destinations in Kansas and Oklahoma that are upstream of Cushing, OK ("Secondary Destinations"). All movements, whether to the Primary Destination or Secondary Destinations, shall be charged the incentive rate from the applicable origin, i.e., Buckingham or Pawnee, to the Primary Destination, except as provided in footnote 2. A shipper may ship up to ten thousand (10,000) BPD of petroleum in excess of its Buckingham dedication ("Buckingham First Tier Extra Barrels") at the Buckingham committed rate. Any barrels in excess of the Buckingham First Tier Extra Barrels may be shipped at the extra barrel rate. A shipper may ship barrels of petroleum in excess of its Pawnee Dedication at the Pawnee committed rate.

(16) As part of this volume incentive program, Shippers may satisfy their obligations by shipping from the Primary Origin (Sterling, Colorado) or upstream origins (except for Platteville, Colorado) to the Destination (Various Cushing Destinations) or to the intermediate destinations in Kansas and Oklahoma that are upstream of Cushing, OK. The Incentive Rates payable by a Shipper on its minimum volume commitment and any extra barrels from the Primary Origin will be the then-applicable Incentive Rates for shipments from the Primary Origin to the Destination, regardless of whether the Shipper ships to that Destination or to an alternative destination, except as provided in footnote 2. If Shipper ships from an upstream origin (other than Platteville, Colorado), the Shipper shall be charged the applicable rate from the upstream origin to Sterling, Colorado plus the Incentive Rate. The applicable Incentive Rate or

Secondary Origin Barrel Rate shall be determined based on the Rate Incentive Shipper's total Minimum Volume Commitment, not the amount shipped by the Rate Incentive Shipper in a given Month.

The Incentive Rates and Secondary Origin Barrel Rates may be indexed annually to reflect the inflation adjustments promulgated annually by FERC; provided however, Carrier shall not be required to reduce any of the then-current rates to reflect application of a negative indexing adjustment. In connection with an assignment of a Shipper's contractual obligation under this program, the assigning Shipper may transfer shipping history in the applicable pipeline segments to the assignee in an amount not to exceed the minimum volume commitment being assigned.

If Shipper ships from the Primary Origin, Shipper shall be charged the PLA percentage set forth in the PLA tables herein applicable to the movement. If Shipper ships from an upstream origin other than Platteville, Colorado, the Shipper shall be charged the PLA percentage set forth in the PLA tables herein applicable to a movement from the upstream origin to the destination not the sum of the product loss allowance fees; provided however, the product loss allowance for shipments from the Platteville, Colorado Origin shall be 0.20%.

(17) The Shipper A Incentive Rates and Extra Barrel Rates are available to each shipper that, as a result of the March 7, 2025 open season, obtained a fully executed Volume Commitment and Rate Incentive Agreement ("RIA") and elected to become a Rate Incentive Shipper A. The Shipper B Incentive Rates and Extra Barrel Rates are available to each shipper that elected to become a Rate Incentive Shipper B pursuant to an RIA. The applicable Incentive Rate Tier shall be determined based on the Shipper's total minimum volume commitment, not the amount shipped by such Shipper in a given month. The Secondary Origin Barrel Rates and the Buckingham Barrel Rate are available to a Rate Incentive Shipper A and a Rate Incentive Shipper B.

In addition to the primary destination of Cushing, OK ("Primary Destination"), Shippers who executed an RIA may make deliveries, subject to available capacity, to intermediate destinations in Kansas and Oklahoma that are upstream of Cushing, OK ("Secondary Destinations"). All movements from Platteville, CO, whether to the Primary Destination or Secondary Destinations, shall be charged the Incentive Rate or Extra Barrel Rate, as applicable, from the Platteville, CO origin ("Primary Origin") to the Primary Destination, except as provided in footnote 2. The first nine thousand (9,000) BPD above a Shipper's minimum volume commitment shall be at the applicable Incentive Rate, any barrels above that shall be at the Extra Barrel Rate. Shippers may fulfill up to 5,000 BPD of their MVC by shipping from the Buckingham Origin.

A Shipper may also ship barrels from Guernsey, WY or Sterling, CO (“Secondary Origins”) to the Primary or Secondary Destinations at the Secondary Origin Barrel Rate, but such volumes do not count towards the Shipper’s minimum volume commitment. The applicable Secondary Origin Barrel Rate Tier in a given Month shall be determined based on Shipper’s aggregated Shipments of Secondary Origin Barrels in such Month from either Guernsey, WY or Sterling, CO. All Secondary Origin Barrel Shipments will be charged the rate for which Shipper qualifies in a given Month, e.g., if Shipper qualifies for the Tier II Rate in a given Month, all of Shipper’s Secondary Origin Barrels for such Month will be assessed the Tier II Rate. Secondary Origin Credited Barrels will always be subject to the Tier I Secondary Origin Barrel Rate.

The applicable product loss allowance for all movements from the Primary Origin or the Buckingham Origin shall be 0.20%. The applicable product loss allowance for all movements from a Secondary Origin shall be 0.15%. In connection with an assignment of a Rate Incentive Shipper’s contractual obligation under this program, the assigning Rate Incentive Shipper may transfer shipping history in the applicable pipeline segments to the assignee in an amount not to exceed the minimum volume commitment being assigned.
