

BINDING OPEN SEASON FOR TRANSPORTATION CAPACITY

Rockies Express Pipeline (“REX”) is currently accepting bids for backhaul transportation capacity with a Maximum Daily Transportation Quantity of 100,000 Dth/day starting on November 1, 2013. This capacity is available from the following points:

Receipt Points: Echo Springs (PIN 42760): 10,300 Dth/day available

WIC / Bitter Creek (PIN 42230)

Cheyenne Plains / Crazy Bear (PIN 42718)

Cheyenne Hub Pool Point (PIN 43492)

Delivery Point: Overthrust / Wamsutter (PIN 42804)

Term Start Date: November 1, 2013

The capacity above is available at REX’s maximum tariff rate for terms equal to or greater than 12 consecutive months and is available at discounted rates for periods of 364 days or less.

The capacity offered in this open season reflects Transporter’s expectations, at the time of posting, of system operating conditions for the applicable period for which capacity is being made available. Transporter reserves the right to adjust final capacity awards to reflect changes, if any, to system conditions at the time of award. The available capacity listed above may not be inclusive of all capacity available on this pipeline system nor does the capacity listed above reflect all possible path combinations which may be available. Additionally, some capacity packages may become unavailable based on award of other portions of capacity. Please contact your Account Director as to the availability of alternate receipt and delivery points or alternate paths.

Bidding Requirements

All interested parties must e-mail bids to TEP@tallgrassenergyllp.com by 11:00 a.m. Mountain Time (“MT”) on **Tuesday, September 17, 2013**.

Bidders will be notified of bid results by 3:00 p.m. MT on Wednesday, September 18, 2013. Bidders must satisfy REX’s credit requirements as stated in its Tariff prior to submitting a bid for capacity. All bids shall be binding and must contain the information required by the bid form included in this posting, including the following:

Primary receipt point (s) – Call account directors listed below as to point availability.

Primary delivery point (s) – Call account directors listed below as to point availability.

Maximum Daily Transportation Quantity by Receipt/Delivery Point pairs.

Term Start Date

Term End Date

If bidding the applicable maximum reservation rate, mark "x" in the blank next to the "Max" on the bid form. If bidding less than the applicable maximum reservation rate, please insert the specific dollar amount of your reservation rate bid in the appropriate blank on the bid form. The bid rate will only apply to a maximum aggregate delivery quantity on any day equal to the Contract MDTQ.

The bids may specify primary delivery points in any segment in which capacity is available. In addition to the bid reservation rate, bidders shall also pay all other applicable tariff rates and charges, including without limitation commodity rates, ACA, and Fuel and Lost & Unaccounted for ("FL&U") charges. These rates and charges will be assessed per REX's FERC Gas Tariff.

REX will award capacity in this open season based on the net present value ("NPV") of acceptable valid bids received by REX. REX reserves the right: (i) not to award capacity for any bid received at less than the applicable maximum rate; and (ii) to aggregate acceptable bids (including bids with prorated capacity, to the extent applicable) to determine the highest value of acceptable bids received. REX will only consider bids with bid terms in excess of one month, and will apply a discount factor of 3.25% in determining the NPV of a bid.

If you have any questions about this open season, or if you have an interest in discussing other mainline transportation service opportunities, please contact John Boughner at (303)763-3277, Paula Barrett Gold at (303) 763-3345, Debbie Fishel at (303)763-3286 or Ed Degan at (303) 763-3297.
