

KMIGT Reticulated Segments Effective December 1, 2003

The following segments are identified as reticulated segments on KMIGT pursuant to the segmentation provisions contained within Section 3.14 of KMIGT's tariff:

30
160
290
365
460

Segmentation will not be allowed if contract paths resulting from the proposed segmentation begin and end within the same reticulated segment. Further, Segmentation will not be allowed if the proposed segmentation creates a new contract receipt or delivery point within a reticulated segment if that reticulated segment is within the primary path that is being segmented.
